

Restaurant Brands New Zealand Limited

2007 Financial Statements

The Directors are pleased to present the Financial Statements of Restaurant Brands New Zealand Limited for the year ended 28 February 2007 contained on pages 2 to 32.

For and on behalf of the Board of Directors:

E K van Arkel
Chairman

Date 26 April 2007

D A Pilkington
Director

Date 26 April 2007

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES FOR THE YEAR ENDED 28 FEBRUARY 2007

Reporting Entity

Restaurant Brands New Zealand Limited, a company domiciled in New Zealand, is registered under the Companies Act 1993 and is listed on the New Zealand Stock Exchange ("NZX"). The company is an issuer in terms of the Financial Reporting Act 1993. The consolidated financial statements presented are those for Restaurant Brands New Zealand Limited (the Company) and the Restaurant Brands Group (the Group). The Group consists of the Company and its subsidiaries.

Statement of Compliance

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZGAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS"), and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. Compliance with NZ IFRS ensures that the financial statements also comply with International Financial Reporting Standards ("IFRS"). These are the Group's first full year audited financial statements under NZ IFRS and NZ IFRS 1 has been applied. The financial statements were approved by the Board of Directors on 26 April 2007.

An explanation of how the transition to NZ IFRS has affected the reported financial position and financial performance is provided in Note 26.

Basis of Preparation

The consolidated financial statements comply with the Financial Reporting Act 1993 and comprise statements of the following: income statement, statement of recognised income and expenses, balance sheet, cash flows, significant accounting policies, as well as the notes to these statements.

The consolidated financial statements are presented in New Zealand dollars which is the Company's functional currency. The financial information has been rounded to the nearest thousand.

The Group divides its financial year into thirteen 4-week periods. The 2007 full year results are for 52 weeks (364 days). Occasionally a "leap year" of 53 weeks is required to adjust the accounting year to a calendar basis.

Accounting Convention

The consolidated financial statements have been prepared on the historical cost basis, except for financial derivatives which are stated at their fair value and are discussed further below.

The policies set out as follows have been consistently applied to the comparative year and opening balance sheet as at 1 March 2005, and have been applied consistently by Group entities.

Estimates and Judgments

The preparation of financial statements requires management to make judgment, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In particular, information about significant areas of estimation, uncertainty and critical judgment in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are: goodwill impairment in note 7 in relation to Pizza Hut New Zealand, and costs related to the exit of Pizza Hut Victoria in note 2.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

BASIS OF RECOGNISING COMPONENTS OF THE FINANCIAL STATEMENTS

The following significant accounting policies have been adopted:

Basis of Consolidation

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra group balances and profits resulting from intra group transactions are eliminated in preparing the consolidated financial statements.

Foreign Currency

Transactions in foreign currencies are translated to the respective functional currencies of individual Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on

monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences in respect of the net investment in foreign operations (see below).

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to New Zealand dollars at exchange rates at the reporting date. The income and expenses of foreign operations, are translated to New Zealand dollars at exchange rates at the dates of the transactions.

Exchange differences arising from the translation of the net investment in foreign operations are recognised in the foreign currency translation reserve and are released to the income statement upon disposal. All differences which arose prior to 1 March 2005 have, upon adoption of NZ IFRS, been transferred to retained earnings.

Financial Instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise trade and other receivables, which are recognised at cost less impairment losses, cash and cash equivalents, loans and borrowing, and trade and other payables which are stated at cost.

Non-derivative financial instruments are recognised initially at fair value plus, any directly attributable transaction costs, except as described below. All changes in fair value are recorded through the income statement.

A financial instrument is recognised if the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Regular way purchases and sales of financial assets are accounted for at trade date, i.e. the date that the Group commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Accounting for finance income and expense is discussed below.

Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risks arising from operational, financing and investment activities. The Group does not hold derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related. A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through profit or loss.

Derivatives are recognised initially at fair value, attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

The fair value of forward exchange contracts is based on their listed market price, if available. If a listed market price is not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds). The fair value of interest rate swaps is based on broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

Cash flow hedges

Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognised directly in equity to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in equity remains there until the forecast transaction occurs. When the hedged item is a non-financial asset, the amount recognised in equity is transferred to the carrying amount of the asset when it is recognised. In other cases the amount recognised in equity is transferred to profit or loss in the same period that the hedged item affects profit or loss.

Revenue Recognition

Goods sold and services rendered

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs of possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

Grants

A grant is recognised in the balance sheet initially as deferred income when there is reasonable assurance that it will be received and that the Group will comply with the conditions associated with the grant. Grants that compensate the Group for the cost of an asset are recognised in the income statement on a systematic basis over the useful life of the asset.

Net funding costs

Net funding costs comprise: interest payable on borrowings calculated using the effective interest rate method; interest received on funds invested calculated using the effective interest rate method; foreign exchange gains and losses; gains and losses on certain financial instruments that are recognised (ie unhedged derivatives) in the income statement; unwinding of the discount on provisions and impairment losses on financial assets.

Lease Payments

- *Finance leases*

Minimum lease payments under finance leases are apportioned between the finance charge and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

- *Operating leases*

Payments made under operating leases are recognised in the income statement on a straight line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Income tax expense

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that they probably will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

Intangible Assets

Goodwill

Goodwill arises on the acquisition of subsidiaries and business combinations.

- *Acquisitions prior to 1 March 2005*

As part of its transition to NZ IFRS, the Group elected to restate only those business combinations that occurred on or after 1 March 2005. In respect of acquisitions prior to 1 March 2005, goodwill represents the amount recognised under previous NZ GAAP.

- *Acquisitions on or after 1 March 2005.*

For acquisitions on or after 1 March 2005, goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess is negative (negative goodwill), it is recognised immediately in profit or loss.

Goodwill is measured at cost, less accumulated impairment losses. Goodwill is allocated to cash generating units and is tested annually for impairment.

Franchise costs

Franchise costs are those incurred in obtaining franchise rights or licences to operate quick service and take-away restaurant concepts. They include, for example, the initial fee paid to a system franchisor when a new store is opened. These are measured at cost less accumulated amortisation and accumulated impairment losses. Amortisation is on a straight-line basis over the life of the applicable franchise or license agreement.

Concept development costs and fees

Concept development costs and fees include certain costs, other than the direct cost of obtaining the franchise, associated with the establishment of quick service and take-away restaurant concepts. These include, for example, professional fees and consulting costs associated with the establishment of a new brand or business acquisition.

These costs are capitalised where the concept is proven to be commercially feasible and the related future economic benefits are expected to exceed those costs with reasonable certainty. These are subsequently measured at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over the period which future economic benefits are reasonably expected to be derived.

Property, Plant and Equipment

Owned assets

Property plant and equipment are measured at cost less accumulated depreciation and impairment losses. Where appropriate, the cost of property, plant and equipment includes site preparation costs, installation costs and the cost of obtaining resource consents.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired by way of finance leases are stated initially at an amount equal to the lower of its fair value and present value of the future minimum lease payments. Subsequent to initial recognition the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and are not recognised on the Group's balance sheet. The Group also leases certain plant and equipment and land and buildings by way of operating lease. The cost of improvements to leasehold assets is capitalised as buildings or leasehold improvements and then depreciated as outlined below.

Capital work in progress

All costs relating to an asset are first recorded in capital work in progress. Once all associated costs for an asset are established with relative certainty, the asset is then transferred from work in progress and capitalised into fixed assets.

Store start up costs

Costs incurred in connection with the assessing the feasibility of new sites are expensed as incurred with the exception of franchise costs and certain development costs and fees as discussed above.

Depreciation

Depreciation recognised in the income statement and is calculated on a straight line basis to allocate the cost of an asset, less any residual value, over its estimated useful life. Leased assets are depreciated over the shorter of the lease term and their useful lives. The estimated useful lives of fixed assets are as follows:

Leasehold improvements	5 - 20 years
Plant and equipment	3 - 12.5 years
Motor vehicles	4 years
Furniture and fittings	3 - 10 years
Computer equipment	3 - 5 years

Depreciation methods, useful lives and residual values are reassessed at the reporting date.

Inventories

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price less the estimated costs of marketing, selling and distribution. The cost of inventories is based on the first-in first-out principle and includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location.

Statement of Cash Flows

The following are definitions of the terms used in the Statement of cash flows:

- a) Cash comprises; cash at bank, cash on hand and overdraft balances;
- b) Investing activities are those activities relating to the acquisition, holding and disposal of fixed assets and of investments; Investments can include securities not falling within the definition of cash;
- c) Financing activities are those activities which result in changes in the size and composition of the capital structure of the company;
- d) Operating activities include all transactions and other events that are not investing or financing activities.

Dividends

Dividends are accrued in the period that they are authorised.

Impairment

The carrying amounts of the Group's assets except for inventories and deferred tax assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists then the asset's Cash Generating Unit's or (CGU's) recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date. An impairment loss is recognised whenever the carrying amount of an asset or CGU exceeds its recoverable amount. A CGU is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses directly reduce the carrying amount of assets and are recognised in the income statement. Impairment losses recognised in respect of CGU's are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

Except for impairment losses on goodwill, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. An impairment loss in respect of goodwill is not reversed.

Share Capital

Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity.

Earnings Per Share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

Employee Benefits

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The benefit is discounted to determine its present value.

Share-based payment transactions

The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period in which the employees become unconditionally entitled to the options. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest. The fair value of the options granted is measured using an options pricing model, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to share prices not achieving the threshold for vesting.

Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A provision is recognised for the amount expected to be paid under short-term cash bonus if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Segment Reporting

Segment information is presented in respect of the Group's business and geographical segments. The primary format, business segments, is based on the Group's management and internal reporting structure. Inter-segment pricing is determined on an arm's length basis. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly investments and related revenue, loans and borrowings and related expenses, corporate assets (primarily the Company's) and head office expenses, and income tax assets and liabilities. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

Business segments

The Group comprises the following main business segments:

- KFC
- Pizza Hut New Zealand
- Starbucks Coffee
- Pizza Hut Victoria

The main activities of these business segments is the operation of quick-service and take-away restaurant concepts.

Geographical segments

The KFC, Pizza Hut New Zealand and Starbucks Coffee segments are managed and operated in New Zealand. Pizza Hut Victoria is managed and operated in the state of Victoria, Australia.

Goods and Services Tax

The income statement and statement of cashflow have been prepared exclusive of Goods and Services Taxation.

Non-Current Assets Held for Sale

Non-current assets (or disposal groups comprising assets and liabilities) that are expected to be recovered primarily through sale rather than through continuing use are classified as held for sale. Immediately before classification as held for sale, the assets (or components of a disposal group) are remeasured in accordance with the Group's accounting policies. Thereafter generally the assets (or disposal group) are measured at the lower of their carrying amount and fair value less cost to sell. Impairment losses on initial classification as held for sale and subsequent gains or losses on re-measurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss.

Discontinued Operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed of, or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative income statement is restated as if the operation has been discontinued from the start of the comparative period.

Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Restructuring

A provision for restructuring is recognised when the Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating costs are not provided for.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

New Standards and Interpretations not yet Adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 28 February 2007, and have not been applied in preparing these consolidated financial statements:

- NZ IFRS 7 *Financial Instruments: Disclosures and the Amendment to NZ IAS 1 Presentation of Financial Statements: Capital Disclosures* require extensive disclosures about the significance of financial instruments for an entity's financial position and performance, and qualitative and quantitative disclosures on the nature and extent of risks. NZ IFRS 7 and amended NZ IAS 1, which becomes mandatory for the Group's 2008 financial statements, will require additional disclosures with respect to Group's financial instruments and share capital.

- NZ IFRIC 8 *Scope of NZ IFRS 2 Share-based Payment* addresses the accounting for share-based payment transactions in which some or all of goods or services received cannot be specifically identified. NZ IFRIC 8 which becomes mandatory for the Group's 2008 financial statements, with retrospective application required. The adoption of this interpretation is not expected to have any impact on the consolidated financial statements.
- NZ IFRIC 9 *Reassessment of Embedded Derivatives* requires that a reassessment of whether embedded derivative should be separated from the underlying host contract should be made only when there are changes to the contract. NZ IFRIC 9, which becomes mandatory for the Group's 2008 financial statements, is not expected to have any impact on the consolidated financial statements.
- NZ IFRIC 10 *Interim Financial Reporting and Impairment* prohibits the reversal of an impairment loss recognised in a previous interim period in respect of goodwill, and investment in an equity instrument or a financial asset carried at cost. NZ IFRIC 10, becomes mandatory for the Group's 2008 financial statements, and will apply to goodwill, investments in equity instruments, and financial assets carried at cost prospectively from the date that the Group first applied the measurement criteria of NZ IAS 36 and NZ IAS 39 respectively (i.e. 1 March 2005), and is not expected to have any impact on the consolidated financial statements.
- NZ IFRIC 11 *NZ IFRS 2 Group and Treasury Shares Transactions* requires a share-based payment arrangement in which an entity receives goods or services as consideration for its own equity-instruments to be accounted for as an equity-settled share-based payment transaction, regardless of how the equity instruments needed are obtained. NZ IFRIC 11 becomes mandatory for the Group's 2008 financial statements, with retrospective application required. The Group has not yet determined the potential impact of the interpretation.
- NZ IFRIC 12 *Service Concession Arrangements* addresses how service concession operators should apply existing New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) to account for the obligations they undertake and rights they receive in service concession arrangements. NZ IFRIC 12 becomes mandatory for the Group's 2009 financial statements. NZ IFRIC 12 is not relevant to the Group's operation.
- NZ IFRS 8 *Operating Segments* requires an entity to adopt the 'management approach' to reporting on the financial performance of its operating segments. Generally, the information to be reported would be what management uses internally for evaluating segment performance and deciding how to allocate resources to operating segments. Such information may be different from what is used to prepare the income statement and balance sheet and would therefore require explanation of the basis on which the segment information is prepared and reconciliations to the amounts recognised in the income statement and balance sheet. NZ IFRS 8 is effective for accounting periods beginning 1 January 2009. The Group has not yet determined the potential impact of the standard.

Notes to the Financial Statements

Notes to the Financial Statements (continued)**For the year ended 28 February 2007****Note 2 - Discontinued Operations**

Losses attributable to the discontinued operations of Pizza Hut Victoria were as follows:

	Group 2007 \$'000	Group 2006 \$'000
Results of discontinued operations		
Revenue	25,068	27,589
Cost of goods sold	(22,491)	(24,214)
Distribution expenses	(2,005)	(2,234)
Marketing expenses	(3,502)	(3,428)
General and administration expenses	(1,703)	(2,218)
Results from operating activities	(4,633)	(4,505)
Income tax credit	1,530	1,515
Results from operating activities, net of income tax	(3,103)	(2,990)
Non trading	(3,371)	(167)
Net financing costs	(2)	85
Loss on sale of discontinued operations (impairment)	(6,564)	(7,115)
Income tax on loss on sale of discontinued operations	3,179	1,302
(Loss) for the period	(9,861)	(8,885)
Basic (loss) cents per share	(10.15)	(9.16)
Cash flows from discontinued operations		
Net cash (used in) operating activities	(6,380)	(2,216)
Net cash (used in) investing activities	(1,851)	(1,567)
Net cash (used in) from financing activities	(30)	15
Net cash (used in) discontinued operations	(8,261)	(3,768)

The loss for the period reflects the realised and unrealised net losses on store disposals of \$2.0 million including costs of disposal and fees paid to the franchisor, Yum Restaurants International (Yum!), impairment of franchise fees of \$0.7 million and fixed asset impairment of \$5.9 million.

Because the franchise agreements with Yum! in this market now create obligations that are onerous in nature, these future financial obligations relating to the as yet unsold stores have been estimated and taken up in this financial year as a provision for onerous contracts under NZIFRS37. These are in the sum of \$1.3 million.

As the Group is in the process of exiting the Pizza Hut Victorian business it has reclassified these assets and liabilities as held for sale and the results from trading as discontinued operations.

Note 3 - Non-current assets held for sale

Pizza Hut Victoria is presented as a disposal group held for sale following the commitment of the Group's management, to a plan to sell the business. Sale of the disposal group is expected to be completed in the new financial year.

All other assets held by the disposal group have been impaired to nil.

	Group 2007 \$'000
Assets classified as held for sale	
Inventories	104
Trade and other receivables	333
	437
Liabilities classified as held for sale	
Trade and other payables	3,530

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

Note 4 - Analysis of expenses

The surplus before taxation is calculated after charging the following items:

	Group	Group	Company	Company
	2007	2006	2007	2006
	\$'000	\$'000	\$'000	\$'000
Auditors' remuneration:				
To KPMG for statutory audit services	100	94	-	-
To KPMG for other assurance services	25	24	-	-
To KPMG for financial advisory services	37	62	-	-
To KPMG for taxation services	34	59	-	-
Government training grants (included in general and administration expenses)	(165)	(160)	-	-
Government training grants (included in cost of sales)	(159)	(884)	-	-
Amortisation of intangibles (included in cost of sales)	575	561	-	-
Royalties paid	18,908	18,780	-	-
Operating rental expenses	21,190	19,994	-	-
Net loss on disposal of property, plant and equipment	1,408	516	-	-
Donations	-	30	-	-
Directors' fees	226	260	-	-
Interest expense (net)	3,256	2,345	3,697	2,534
Finance lease interest	153	60	-	-
Non trading items				
Pizza Hut Victoria:				
Impairment of Pizza Hut Victoria goodwill	-	3,023	-	-
Impairment of Pizza Hut Victoria property, plant and equipment	5,862	3,681	-	-
Impairment of Pizza Hut Victoria other intangibles	702	411	-	-
Other store closure costs	3,371	50	-	-
Other store relocation and refurbishment costs	-	117	-	-
	9,935	7,282		
New Zealand:				
Impairment of Pizza Hut NZ goodwill	1,142	-	-	-
Other store closure costs	1,335	1,283	-	-
Other store relocation and refurbishment costs	2,075	846	-	-
Other revenue	(128)	(194)	-	-
	4,424	1,935		
Personnel Expenses	Group	Group		
	2007	2006		
	\$'000	\$'000		
Wages and salaries	84,061	80,133		
(Decrease) in liability for long-service leave	(43)	(16)		
Equity-settled share-based payment transactions	15	24		
	84,033	80,141		

The parent company has no personnel expense (2006: nil).

Balance as at 1 March 2005	26,786	2,548	1,301	30,635
Balance as at 28 February 2006	23,820	2,839	745	27,404
Balance as at 28 February 2007	22,678	4,434	774	27,886

The parent company has no intangible assets (2006: nil).

Goodwill

In the year ended 28 February 2006, the Directors considered the carrying amount of goodwill in the company's investment in Pizza Hut Victoria. It was determined, that given the trading position of the business, the value of the goodwill as currently recorded was not substantiated. Accordingly the full amount of the carrying value of the Pizza Hut Victoria goodwill was fully impaired, resulting in an impairment loss of \$3.0 million in the income statement.

Franchise costs

During the current year, the Group signed a new KFC Master Franchise Agreement with Yum!, the franchisor for its KFC and Pizza Hut brands. Under the agreement, approximately fifty percent of the KFC store franchises were renewed for \$2.6 million. The remaining KFC stores will be renewed in May 2007, on payment of a similar renewal fee. The payment of \$2.6 million is included under intangible assets.

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

Impairment testing for cash-generating units containing goodwill

For the purpose of impairment testing, goodwill is allocated to the Group's operating divisions which represent the lowest level within the Group at which the goodwill is monitored for internal management purposes.

The aggregate carrying amounts of goodwill allocated to each unit are as follows:

	Group	Group
	2007	2006
	\$'000	\$'000
KFC	1,348	1,348
Pizza Hut New Zealand	21,330	22,472

The recoverable amount of each cash-generating unit was based on its value in use. There was an impairment loss identified for the Pizza Hut New Zealand segment.

Value in use was determined by discounting the future cash flows generated from the continuing use of the unit and was based on the following key assumptions:

KFC

Value in use was determined by discounting the future cash flows generated from the continuing use of the unit. Cashflows were projected based on the 3 year strategic business plan as approved by the board of directors. The cashflows were based on sales growth of 6-9% pa over 2008 – 2010. Adjustments were made for operating expenses, capital expenditure and taxation. A terminal year was calculated based on the 2010 year and assumes a continuous growth of a minimum of projected inflation estimates of 2.5%.

The discount rate, applied to future cashflows is based on a weighted average cost of capital applicable to Restaurant Brands.

Pizza Hut New Zealand

Value in use was determined by discounting the future cash flows generated from the continuing use of the unit. Cashflows were projected based on the 3 year strategic business plan as approved by the board of directors. The cash flows were based on sales growth of a decrease of 2% in 2008, and up to an increase of 5.4% pa over 2009 – 2010. Adjustments were made for operating expenses, capital expenditure and taxation. A terminal year was calculated based on the 2010 year and assumes a continuous growth of a minimum of projected inflation estimates of 2.5%.

The downturn in performance in Pizza Hut New Zealand in the current financial year because of significant competitor activity led to a review of future operating activities and the board of directors has decided to impair Pizza Hut New Zealand goodwill by \$1.1 million.

The discount rate, applied to future cashflows is based on a weighted average cost of capital applicable to Restaurant Brands.

The values assigned to the key assumptions represent management's assessment of future trends in the industry and are based on both external sources and internal sources (historical data).

The above estimates are particularly sensitive in the following areas:

Pizza Hut New Zealand

A ten percent decrease in future planned EBITDA would increase the impairment by \$6.4 million.

An increase of one percentage point in the discount rate would increase the impairment by \$4.5 million.

Note 8 - Investment in subsidiaries

The subsidiary companies, all of which are wholly owned, have a 28 February balance date, and have been owned for the full financial year, are as follows:

Restaurant operating companies

Restaurant Brands Limited
Restaurant Brands Australia Pty Limited
(incorporated in Victoria, Australia)

Investment holding companies

RB Holdings Limited
RBP Holdings Limited
RBDNZ Holdings Limited
RBN Holdings Limited

Property holding companies

Restaurant Brands Properties Limited

Non trading subsidiary companies

Restaurant Brands Pizza Limited
Kentucky Fried Chicken Limited

Employee share option plan trust company

Restaurant Brands Nominees Limited

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

Note 9 - Deferred tax assets and liabilities

Recognised deferred tax assets and liabilities are attributable to the following:

Group	Assets		Liabilities		Net	
	2007	2006	2007	2006	2007	2006
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Property, plant and equipment	1,701	1,830	(880)	(570)	821	1,260
Inventory	42	33	-	-	42	33
Debtors	7	5	-	-	7	5
Provisions	3,307	3,528	-	-	3,307	3,528
Intangibles	192	-	(3,499)	(3,443)	(3,307)	(3,443)
Other	-	-	(3)	(3)	(3)	(3)
Tax Losses	1,231	-	-	-	1,231	-
	6,480	5,396	(4,382)	(4,016)	2,098	1,380

The parent company has no deferred tax assets or liabilities (2006: nil).

Movement in temporary differences during the year:

Group \$'000	Balance March 2005	1 Recognised in income statement	Recognised in equity	Balance 28 February 2006	Recognised in income statement	Recognised in equity	Balance 28 February 2007
Property, plant and equipment	(199)	1,457	2	1,260	(289)	(150)	821
Inventory	10	23	-	33	10	(1)	42
Debtors	2	3	-	5	2	-	7
Provisions	2,314	1,207	7	3,528	(94)	(127)	3,307
Intangibles	(2,041)	(1,402)	-	(3,443)	147	(11)	(3,307)
Other	-	(3)	-	(3)	-	-	(3)
Tax Losses	-	-	-	-	1,231	-	1,231
	86	1,285	9	1,380	1,007	(289)	2,098

Recognition of the tax losses of \$1.2 million is dependent upon the requirements of income tax legislation being met and these are expected to be utilised within the next year.

Note 10 - Inventories

	Group 2007 \$'000	Group 2006 \$'000
Raw materials and consumables	2,022	2,253

All inventories are valued at cost.

Note 11 – Trade and other receivables

	Group 2007 \$'000	Group 2006 \$'000	Company 2007 \$'000	Company 2006 \$'000
Prepayments	575	1,408	-	-
Other debtors	316	245	-	-
	891	1,653	-	-

Included in other debtors are foreign currency debtors of nil, (2006: \$17,000, AUD \$16,000).

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

(Loss)/ profit attributable to ordinary shareholders discontinued operations	(10.15)	(9,861)	(9.16)	(8,885)
(Loss)/ profit attributable to ordinary shareholders total operations	(3.66)	(3,554)	5.36	5,197

Notes to the Financial Statements (continued)**For the year ended 28 February 2007****Note 16 – Loans and finance leases**

This note provides information about the contractual terms of the Group's interest-bearing loans and borrowings. All existing bank loans, loans and finance leases are denominated in New Zealand dollars, (2006 \$0.03 million of finance leases were denominated in Australian dollars). For more information about the Company's exposure to interest rate and foreign currency risk see note 19.

	Group 2007 \$'000	Group 2006 \$'000	Company 2007 \$'000	Company 2006 \$'000
Non current liabilities				
Finance leases	591	735	-	-
Secured bank loans	48,580	32,365	48,580	32,365
	49,171	33,100	48,580	32,365
Current liabilities				
Finance leases	605	674	-	-
Other loans	190	-	-	-
	795	674	-	-

Secured bank loans were renewed in 2007. Renewals are for 3 years.

The secured bank loan \$48.6 million, is unhedged for interest rate rises (2006: \$32.4 million). The loan is floating at an interest rate of 7.58% (2006:7.55%) at balance date. The bank loans are structured as a revolving wholesale advance facility with portions of the facility renewing on a regular basis.

As security over the loans and bank overdraft, the banks hold a negative pledge deed between Restaurant Brands New Zealand Limited and all its subsidiary companies. The negative pledge deed includes all obligations and cross guarantees between the guaranteeing subsidiaries. The other loan is at a fixed interest rate of 11% and is repayable within a year.

Note 17 – Current creditors and accruals

	Group 2007 \$'000	Group 2006 \$'000	Company 2007 \$'000	Company 2006 \$'000
Trade creditors	8,732	11,800	-	-
Other creditors and accruals	8,418	5,650	312	207
Employee entitlements	5,531	5,613	-	-
Indirect and other taxes	1,869	2,461	-	-
	24,550	25,524	312	207

Included in trade creditors are foreign currency creditors of \$218,000 (AUD 7,000; US 149,000), (2006: NZ\$2,625,000 AU\$2,181,000; US\$133,000) which are not hedged. The trade creditors included in liabilities held for sale as per Note 3 are NZ\$1,253,000 and are not hedged.

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

Note 18 - Provisions and deferred income

Group \$'000	Surplus lease space	Store closure costs	Employee entitlements	Deferred Income	Total
Balance at 1 March 2006	698	364	475	4,545	6,082
Provisions created during the period	227	250	377	2,515	3,369
Provisions used during the period	(509)	(258)	(361)	(1,035)	(2,163)
Provisions released during the period	(41)	(86)	-	-	(127)
Unwind of discount	(26)	(19)	-	-	(45)
Provisions reclassified as held for sale	-	-	(59)	-	(59)
Balance at 28 February 2007	349	251	432	6,025	7,057
2007:					
Non-current	-	-	432	4,757	5,189
Current	349	251	-	1,268	1,868
	349	251	432	6,025	7,057
2006:					
Non-current	-	-	475	3,611	4,086
Current	698	364	-	934	1,996
	698	364	475	4,545	6,082

The provision for surplus lease space reflects lease commitments that the Group has on properties leased that are surplus to its current operating requirements. The Group is currently seeking tenants to sub-lease the excess space that it has. The provision has been used in the period to off-set payments made to lessors.

The provision for store closure costs reflects the estimated costs of make good and disposal of fixed assets for stores committed for closure.

The provision for deferred income relates to non routine revenue from suppliers and landlords and is recognised in the income statement on a systematic basis over the life of the associated contract.

The provision for employee entitlements is long service leave. The provision is affected by a number of estimates, including the expected length of service of employees and the timing of benefits being taken.

Note 19 - Financial instruments

Exposure to credit, interest rate and currency risks arises in the normal course of the Group's business. Derivative financial instruments are sometimes used to hedge exposure to fluctuations in foreign exchange rates and interest rates.

(a) Foreign currency risk

The Group is exposed to foreign currency risk on purchases that are denominated in a currency other than the New Zealand dollar. The currencies giving rise to this risk are primarily U.S. dollars and Australian dollars.

The direct exposure to foreign currency risk is small and is primarily confined to raw material purchases, some items of capital equipment and some franchise fee payments. Where any one item is significant, the company will specifically hedge its exposure.

The Group has an indirect exposure to foreign currency risk on some of its locally sourced ingredients, where those ingredients in turn have a high imported component. Where this is significant the Group contracts to a known purchase price with its domestic supplier based on a forward cover position taken by that supplier on its imported components.

The Group has a residual foreign currency risk on its assets and liabilities that are denominated in Australian dollars as part of its remaining Australian investment.

(b) Interest rate risk

The Group hedges its exposure to changes in interest rates primarily through the use of interest rate swaps. There are no minimum prescribed guidelines as to level of hedging.

The Group classifies interest rate swaps as cash flow hedges and states them at fair value. The fair value of swaps are adjusted against the opening balance of the hedging reserve at that date.

No interest hedge exists at 28 February 2007, (2006: nil).

Notes to the Financial Statements (continued)
For the year ended 28 February 2007

(c) Repricing analysis

In respect of the Group's income earning financial assets and interest bearing financial liabilities, the following table indicates their effective interest rate at balance date and the periods in which they reprice.

Group 2007	Effective interest rate	Total \$'000	12 months or less \$'000	12 months or more \$'000
Cash	6.75%	2,081	2,081	-
Bank Overdraft	9.15%	(981)	(981)	-
Other loans	11%*	(190)	(190)	-
Bank term loans	7.58%	(48,580)	(48,580)	-
Finance leases		(1,196)	(605)	(591)
		(48,866)	(48,275)	(591)

* Other loans are a fixed interest rate.

Group 2006	Effective interest rate	Total \$'000	12 months or less \$'000	12 months or more \$'000
Cash	1.00%	2,537	2,537	-
Bank Overdraft	9.15%	(504)	(504)	-
Bank term loans	7.55%	(32,365)	(32,365)	-
Finance leases		(1,409)	(674)	(735)
		(31,741)	(31,006)	(735)

The bank term loans are at floating interest rates and the other loan is at a fixed interest and is repayable within a year. The bank term loans are not due for payment within 12 months, however they are structured as a revolving wholesale advance facility with portions of the facility renewing on a regular basis. This leads to the loans being sensitive to interest rate movement in 12 months or less.

The company position for both 2007 and 2006 reflects the group position in the case of the bank term loans and the overdraft.

(d) Credit facilities

The Group has bank funding facilities, excluding overdraft facilities, of \$70 million (2006: \$50 million) available at variable rates. The amount undrawn at balance date was \$21.4million (2006: \$17.6million).

(e) Credit risk

No collateral is required in respect of financial assets. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. The nature of the business results in most sales being conducted on a cash basis that significantly reduces the risk that the Group is exposed to. Reputable financial institutions are used for investing and cash handling purposes.

At balance date there were no significant concentrations of credit risk and the maximum exposure to credit risk is represented by the carrying value of each financial asset in the statement of financial position. There is no exposure to credit risk arising from derivative financial instruments as the net differential paid or received on forward exchange contracts is recognised as a component of interest expense over the period of the agreement.

(f) Fair values

The carrying values of bank loans and finance leases are the fair value of these liabilities. A Group set-off arrangement is in place between certain bank accounts operated by the Group.

Sensitivity analysis

In managing interest rate and currency risks the Group aims to reduce the impact of short-term fluctuations on the Group's earnings. Over the longer-term, however, permanent changes in foreign exchange and interest rates on a weighted average balance will have an impact on profit.

At 28 February 2007 it is estimated that a general increase of one percentage point in interest rates would decrease the Group's profit before income tax by approximately \$0.4 million (2006: \$0.3 million).

A general increase of one percentage point in the value of the New Zealand dollar against other foreign currencies would have minimal impact on the cost of the Group's directly imported ingredients denominated in foreign currencies.

Notes to the Financial Statements (continued)
For the year ended 28 February 2007

Note 20 – Commitments

(a) Capital commitments

The Group has capital commitments which are not provided for in these financial statements, as follows:

	Group	Group
	2007	2006
	\$000	\$000
Store Development	650	1,520
KFC Franchise fee renewal	2,588	-

(b) Operating lease commitments

Non cancellable operating lease rentals are payable as follows:

	Group	Group
	2007	2006
	\$000	\$000
Not later than one year	17,684	19,363
Later than one year but not later than two years	15,831	17,237
Later than two years but not later than five years	33,578	36,124
Later than five years	19,152	22,682
	86,245	95,406

(c) Renewal rights of operating leases

The Group has entered into a number of operating lease agreements for retail premises. The lease periods vary and many have an option to renew. Lease payments are increased as per the lease contracts to reflect market rentals. The table below summarises the Group's lease portfolio.

Number of leases with:	Rights of renewal		No right of renewal	
	2007	2006	2007	2006
Leases expiring in:				
Not later than one year	34	31	10	13
Later than one year but not later than two years	23	30	5	11
Later than two years but not later than five years	63	74	36	46
Later than five years	76	90	26	14

(d) Finance lease commitments

The carrying amount of finance leases for the Group as at 28 February 2007 is \$1.0 million, (2006: \$1.3 million).

Non cancellable finance lease rentals are payable as follows:

	Group	Group
	2007	2006
	\$'000	\$'000
Not later than one year	659	733
Later than one year but not later than two years	556	550
Later than two years but not later than five years	226	406
	1,441	1,689
Future lease finance charges	(245)	(280)
Net finance lease liability	1,196	1,409
Current	605	674
Non-current	591	735

Notes to the Financial Statements (continued)**For the year ended 28 February 2007****Note 21 - Net cash flow from operating activities**

The following is a reconciliation between the surplus after taxation for the year shown in the income statement and the net cash flow from operating activities.

	Group	Group	Company	Company
	2007	2006	2007	2006
	\$'000	\$'000	\$'000	\$'000
(Loss)/ profit after taxation	(3,554)	5,197	5,291	7,996
Add items classified as investing/ financing activities:				
Loss on disposal of fixed assets	1,408	516	-	-
Other non-operating costs of exiting Pizza Hut Victoria	1,851	-	-	-
	(295)	5,713	-	-
Add/ (less) non-cash items:				
Depreciation	11,062	10,998	-	-
Increase / (decrease) in provision for exit costs	1,362	-	-	-
(Decrease) / increase in provisions	(432)	517	-	-
Amortisation of intangible assets	575	561	-	-
Impairment on Pizza Hut Victoria goodwill	-	3,023	-	-
Impairment of Pizza Hut Victoria intangibles and property, plant and equipment	6,564	4,092	-	-
Impairment of NZ property, plant and equipment	1,342	1,640	-	-
Impairment of Pizza Hut New Zealand goodwill	1,142	-	-	-
(Decrease) in deferred tax liability	(718)	(1,294)	-	-
Share based payments	15	24	-	-
	20,912	19,561	-	-
Add/ (less) movement in working capital:				
Decrease (increase) in inventories	127	(192)	-	-
Decrease in trade debtors and other receivables	435	538	589	733
Increase / (decrease) in trade creditors and other payables	(323)	2,484	107	122
(Increase)/ decrease in income tax receivable	(8)	140	-	-
	231	2,970	696	855
Net cash from operating activities	20,848	28,244	5,987	8,851

Note 22 - Contingent liabilities

There are no contingent liabilities that the directors consider will have a significant impact on the financial position of the Company and Group.

Note 23 - Related party disclosures**Parent and ultimate controlling party**

The immediate parent of the Group is Restaurant Brands New Zealand Limited.

Identity of related parties with whom material transactions have occurred

Note 8 identifies all entities within the Group. All of these entities are related parties of the Company.

In addition, the directors and key management personnel of the Group are also related parties.

Transactions with related parties

Key management personnel compensation comprised short term benefits for the year ended 28 February 2007 of \$2.3 million (2006: \$2.1 million). Directors fees were \$0.2 million (2006: \$0.3 million).

During the year the Group purchased fixed assets of \$0.1 million (2006: \$0.3 million) from Premier Stainless Pty Limited, a company of which Restaurant Brands director, Danny Diab is a director and a shareholder. There was nil owing as at 28 February 2007 (2006: nil).

Material transactions within the Group are loans and advances to and from Group companies and dividend payments. All inter company group loans in the parent company are non interest bearing, repayable on demand and disclosed as a current liability.

Where the Company enters into financial guarantee contracts to guarantee the performance or indebtedness of other companies within the group, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contracts as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

Notes to the Financial Statements (continued)**For the year ended 28 February 2007****Note 24 – Senior Executive Share Option Plan**

On completion of the listing of the Company in 1997, senior executives were granted 852,271 non-transferable options to subscribe for shares in the Company. No options have been exercised or lapsed since granted, and 653,408 have been forfeited on termination of individual's employment. No amount was payable on the grant of the options, and the option exercise price of each option was the final price of the initial public offer (220 cents per share) plus 10% (a resulting price of 242 cents per share).

Each option provides the executive with the entitlement to subscribe for one share (adjusted for bonus share issues). Subject to insider trading legislation and other applicable laws, the options are exercisable as long as the relevant executive remains an employee of the Company. Although in exceptional circumstances the Board has discretion to allow options to be exercised subject to conditions, if the executive is no longer an employee. If it appears that control of the Company will change, the Board are able to allow options to be exercised, again subject to conditions they may impose.

No new options were issued under the Plan during the year. Senior executives exercised no options during the year.

The shares issued under this scheme, will rank equally with other shares.

Note 25- Employee Share growth Share Option Plan

The Company had established an employee share option plan ('the Plan') for certain employees, under which it issued options at no cost for shares in the Company to the employees. The holder of an option is entitled to subscribe for one fully paid share for each option held (adjusted for bonus share issues), at an exercise price that is determined by reference to the market price at the time of issue of the options.

On the anniversary date of issue in each subsequent year 20% of the options issued become exercisable. Options only remain exercisable (subject to certain conditions and legislative provisions) whilst holders remain employed by the company. The options terminate 10 years from the date they are issued and are equity settled. Principal Officers and employees of the Company that participated in the Plan received an annual issue of options in respect of the number of shares equal to approximately 10% of their eligible earnings divided by the exercise price per share.

Options issued and outstanding under The Plan:

Date of issue	Exercise Price	Issued	Exercised to 28 February 2006	Exercised in Year	Forfeited Options	Outstanding Options at 28 February 2007
5-Jun-97	\$2.20	546,213	-	-	(381,676)	164,537
31-Aug-98	\$0.94	1,318,062	(474,625)	(19,603)	(646,472)	177,362
15-Sep-99	\$1.32	1,078,467	(203,228)	-	(610,363)	264,876
11-Sep-00	\$1.05	1,494,368	(407,333)	(25,950)	(748,153)	312,932
12-Sep-01	\$1.50	1,010,122	(76,018)	-	(568,618)	365,486
13-Sep-02	\$1.85	905,128	-	-	(541,209)	363,919
23-Sep-03	\$1.39	1,228,423	(34,486)	-	(598,035)	595,902
Total		7,580,783	(1,195,690)	(45,553)	(4,094,526)	2,245,014

In April 2003 the Employee Share growth plan was terminated and the final allocation of options was the September 2003 allocation. All existing rights with respect to options which have already been granted will be maintained.

Percentage of total shares on issue 2.3% (2006: 2.6%).

In March 2000 there was a 1:12 taxable bonus share issue. Therefore options issued prior to and exercised after this date will have a corresponding adjustment to the number of shares issued.

Notes to the Financial Statements (continued)

For the year ended 28 February 2007

Note 26 - : Explanations of transition to New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS)

These are the Group's first consolidated financial statements prepared in accordance with NZ IFRS.

The accounting policies set out in the front of the financial statements have been applied in preparing the financial statements for the year ended 28 February 2007, the comparative information presented in these financial statements for the year ended 28 February 2006 and in the preparation of an opening NZ IFRS balance sheet at 1 March 2005 (the Group's date of transition).

The impact of adjustments on the financial statements is set out as follows:

Re-measurement of business combinations

The Group has elected not to apply NZ IFRS to business combinations that have occurred prior to the adoption of NZ IFRS.

Intangible Assets

Under NZ IFRS internally generated elements of intangible assets cannot be recognised. This has resulted in \$0.08 million intangible assets previously recognised under NZ GAAP being written off to retained earnings in the year ended 28 February 2005.

NZ IFRS does not permit goodwill to be amortised, but subjects it to an annual impairment test. This has increased earnings by \$2.1 million in the year ended 28 February 2006 in relation to the New Zealand business. The goodwill of the Australian business had been fully impaired in the year ended 28 February 2006.

Taxation

NZ IFRS requires the use of the "balance sheet" approach rather than the "profit and loss account" approach required under NZ GAAP in calculating deferred taxation. Adjustments to deferred taxation of \$1.5 million for the year ended 28 February 2005 resulting from change in earnings is set out in the attached tables.

Financial Instruments

Accounting for financial instruments under NZ IFRS involves some major changes from NZ GAAP. IFRS is very prescriptive on when a financial derivative can be considered an effective hedge of an underlying position or future cashflow. All derivative contracts will be carried at fair value on the Group's balance sheet. If a derivative financial transaction does not qualify for hedge accounting, the mark-to-market fair value movement will be taken to earnings. If a derivative financial transaction does qualify for cash flow hedge accounting, the mark-to-market fair value movement will be taken to a reserve within equity. All of the financial derivative instruments entered into are to hedge the Group's future cash flows and are not speculative in nature; the majority of instruments will qualify for hedge accounting. Upon first time adoption of NZ IFRS a mark-to-market fair value gain of \$0.06 million was recognised at 1 March 2005, this was recognised in the parent company.

Long Service Leave

Long service leave is currently recognised when it vests, whereas under NZ IFRS this is recognised on an actuarial basis from the date an employee is first employed. The impact on first adoption was \$0.4 million against retained earnings as at 1 March 2005.

Foreign Currency Translation Reserve

The balance of the foreign currency translation reserve of \$1.7 million at 28 February 2005 has been transferred to retained earnings from the foreign currency translation reserve on first time adoption of IFRS. There has been no impact on earnings or equity from this change.

Revenue Recognition

The timing of revenue for certain transactions is treated differently under NZ IFRS. The impact of this is to reverse to the balance sheet a deferred portion of revenue previously recognised under NZ GAAP. The impact on first adoption was \$4.1 million against retained earnings.

Notes to the Financial Statements (continued)**For the year ended 28 February 2007****Share Based Payments**

The employee share growth share option plan allowed certain company employees to acquire shares of the Company. Under NZ IFRS the fair value of options granted is recognised as an employee expense with a corresponding increase in equity. Only the 23 September 2003 issue of options was affected. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options granted is measured using an options pricing model, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to share prices not achieving the threshold for vesting. This has resulted in \$0.04 million being transferred to share option reserve at 1 March 2005 in the parent company.

Notes to the Financial Statements (continued)
For the year ended 28 February 2007
Independent auditors' report

To the shareholders of Restaurant Brands New Zealand Limited

We have audited the financial statements on pages 2 to 31. The financial statements provide information about the past financial performance and financial position of the company and group as at 28 February 2007. This information is stated in accordance with the accounting policies set out on pages 5 to 11.

Directors' responsibilities

The Directors are responsible for the preparation of financial statements which give a true and fair view of the financial position of the company and group as at 28 February 2007 and the results of their operations and cash flows for the year ended on that date.

Auditors' responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the Directors and report our opinion to you.

Basis of opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- The significant estimates and judgments made by the Directors in the preparation of the financial statements;
- whether the accounting policies are appropriate to the company's and group's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm has also provided other services to the company and certain of its subsidiaries in relation to taxation and general accounting services. Partners and employees of our firm may also deal with the company and group on normal terms within the ordinary course of trading activities of the business of the company and group. These matters have not impaired our independence as auditors of the company and group. The firm has no other relationship with, or interest in, the company or any of its subsidiaries.

Unqualified opinion

We have obtained all the information and explanations we have required.

- proper accounting records have been kept by the company as far as appears from our examination of those records;
- the financial statements on pages 2 to 31:
 - comply with New Zealand generally accepted accounting practice;
 - give a true and fair view of the financial position of the company and group as at 28 February 2007 and the results of their operations and cash flows for the year ended on that date.

Our audit was completed on 26 April 2007 and our unqualified opinion is expressed as at that date.
